As the time draws near when the Secretary of the Navy will be permitted by an act of Congress to accept the contributions gathered by Marjorie Sterrett to build the U. S. S. America, the fund is approaching the \$20,000 mark.

Patriotic citizens and their children from Oregon to Florida and from Texas to Maine, now numbering more than 148,000, have sent in offerings to eighty-eight newspapers in sixteen states to assist the true blue American girl whose name is known all over the world. Her fame has spread even to China and Australia, and she has received contributions from co-workers in France, England and Belgium. "A Dime to Build a Battleship" was

Mayor's Veto of Cromwell Garbage Bill Brings Mutterings of "Secession."

VIGILANCE COMMITTEE England Navigation Company. The MAPS DEFENCE PLANS

Taxpayers Organize to Harrass **Builders of Destructor** Plant.

Staten Island, which has been quiescent if not wholly pacified over the determination of the Mayor to saddle it with a garbage destructor, rebelled again yesterday over Mr. Mitchel's veto of the Cromwell measure prohibiting erection of the plant.

Vigilance committees again became active and moved about the isle muttering about "secession," "revolution" and "taking the law into our own

The vigilantes were organized under the name of the Separate League, and Edward P. Doyle, a real estate dealer, prepared papers of incorporation. These will be put through the regular course at Albany within a few days. Just as the South was lined up against abelition so have the Staten Islanders solidified against the proposed garbage

Apart from making plans for secession, the taxpayers have devised ways and means to fight the contractors who the are to build the destructor at Holland Hook, on the North Shore. All sorts h structure on the land and surround it with a barbed wire fence. After doing this he intends to give title of the land to the Civic League, composed of 3,000 islanders, which will have authority to handle the legal battle that the folk of Richmond contemplate giving to Mayor Mitchel.

Several Staten Island newspapers printed page advertisements yesterday inserted by the contractors stating that the plant, instead of being an ill smelling the property of the seaboard increased 1,141,000 bushels. In the local cash market No 1 durum wheat was quoted at \$1,301, No 2 hard, \$1,234, all fo b, New York.
